

Colin Montgomerie

**He started using Yonex irons.
His Greens-In-Regulation jumped from 30th to 2nd.
Boom. There ya go.**

Colin Montgomerie was successful before playing Yonex irons. But like all golfers, he wanted to take his game to a higher level. He wanted more distance. Greater accuracy. He achieved both with the Graphite Dual Core technology of Yonex Cyberstar VX irons, from the company that introduced Graphite Technology to golf. His Greens-In-Regulation ranking, a measure of superior iron play, improved dramatically on the PGA European Tour. Independent testing by Golf Test USA proved Cyberstar VX irons best overall in distance and accuracy for golfers of all skill levels. They are the only Graphite Composite irons available today and can help you reach your potential. Just ask Monty.

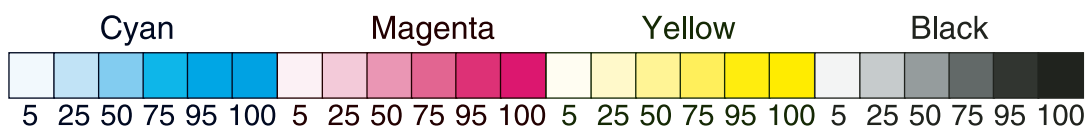

CYBERSTAR VX Iron

**Add up to 20 yards to your irons.
