

## **For Immediate Release**

### **NEW *Cyberstar C280* The Latest Iron Technology from Yonex**

Torrance, CA – January 13, 2006: The Cyberstar C280 Iron is the latest addition to the Cyberstar family of products at Yonex Corporation. The Cyberstar C280 Irons feature an over-size SUS630 Steel head and face with a carbon graphite cavity moulding for extra feel and increased forgiveness. The Cyberstar C280 irons come equipped with a *Centrifugal Force System (CFS)* shaft. This advanced proprietary Yonex technology provides increased club head speed for added distance.

By utilizing the high strength and low weight benefits of carbon graphite, Yonex engineers have been able to reduce the face thickness of the Cyberstar C280 by 25% compared to a conventional iron face. This reduction in face thickness allows for more weight to be distributed around the perimeter of the club head, resulting in a lower center of gravity and an increased sweet spot.

Two Tungsten inserts on the heel and toe further lower and deepen the center of gravity for improved distance and accuracy.

*Centrifugal Force System (CFS)* further increases club head speed by using the most powerful force on earth to help all golfers: GRAVITY. Without an increase in overall shaft weight Yonex engineers have reduced weight at the grip end of the shaft and shifted it to the tip end of the shaft, allowing for greater club head acceleration through the ball when the shaft reaches the bottom of the “swing arc”. This innovative design capitalizes on gravity to optimize the natural speed in the golf swing.

Retailing for \$899.00, the Cyberstar C280 irons come equipped with a high quality Yonex carbon graphite (CFS) shaft in Regular, Stiff, Super Light and Ladies flexes.

The Cyberstar C280 irons are available in #2 through SW.

For more information on the Yonex product line or to find a local retailer that carries the Yonex line, please call 1-800-44-YONEX.

## Specifications: Cyberstar C280 Irons

	Shaft Flex	Loft	Lie	Length
#2I	S	17.0°	59.0°	39.5"
#3I	S, R	20.0°	59.5°	39.0"
#4I	S, R, SL	23.0°	60.0°	38.5"
#5I	S, R, SL	26.0°	60.5°	38.0"
#6I	S, R, SL	29.0°	61.0°	37.5"
#7I	S, R, SL	32.0°	61.5°	37.0"
#8I	S, R, SL	36.0°	62.0°	36.5"
#9I	S, R, SL	40.0°	62.5°	36.0"
#PW	S, R, SL	45.0°	63.0°	35.5"
#AW	S, R, SL	50.0°	63.5°	35.0"
#SW	S, R, SL	56.0°	63.5°	35.0"
#4I	Ladies	23.0°	60.0°	37.5"
#5I	Ladies	26.0°	60.5°	37.0"
#6I	Ladies	29.0°	61.0°	36.5"
#7I	Ladies	32.0°	61.5°	36.0"
#8I	Ladies	36.0°	62.0°	35.5"
#9I	Ladies	40.0°	62.5°	35.0"
#PW	Ladies	45.0°	63.0°	34.5"
#AW	Ladies	50.0°	63.5°	34.0"
#SW	Ladies	56.0°	63.5°	34.0"

- **Head/Body Material:** SUS630 Steel/Carbon Graphite Cavity Moulding
- **Shaft Material:** Yonex Carbon Graphite. CFS
- **Shaft Flex:** Stiff, Regular, Super Light (Senior), Ladies (FL)
- **Left Handed:** Regular and Stiff Only.
