**YONEX INTRODUCES THE NEW CYBERSTAR FORGED WEDGE**

Torrance, CA - January 18<sup>th</sup>, 2005: Yonex Corporation announces the introduction of the new **Cyberstar Forged Wedge**. The **Cyberstar Forged Wedge** will be added to the successful Cyberstar product line.

The **Cyberstar Forged Wedge** is manufactured of forged carbon steel. Forged carbon steel provides the unique solid feel preferred by Tour caliber and advanced golfers. At the same time, the **Cyberstar Forged Wedge** provides a solid feel at impact.

The **Cyberstar Forged Wedge** features a “Raw Finish” Clubface which provides enhanced softer feel for “Pin Point” accuracy, controllable trajectory and versatile shot-making.

The **Cyberstar Forged Wedge** comes equipped with a True Temper Dynamic Gold S300 Steel shaft – the preferred choice of Tour Players from around the world!

MSRP \$125.00

For more information on the product line, please call 1-800-44-YONEX or visit [www.yonex.com](http://www.yonex.com)
